INSTITUTION SOCIETY

High Authority Council
for Arab Bankers

IBM

This course delves into the structure, management and practices of investment banking (IB)— from larger more universal players to boutique operations. It covers the business activities of mergers and acquisitions, financing and investment; and, the creation of value through financial advisory services. It looks into the business practices of private equity, hedge funds and trading operations; and, the role of each in facilitating investment, the deployment of capital and the changing face of risk-taking activities.

COURSE PARTS:

- The World of Investment Banking
- The IB Customer and Investment Banking
- The IB Business of Equities
- The IB Business of Debt/Fixed Income
- The IB Business of Trading/Derivatives
- The Business of Mergers and Acquisitions
- The IB Wealth Management Business
